Christiane
WUILLAMIE OBE

CYBERSECURITY CULTURE ADVOCACY LEADER

OF THE YEAR 2021

**REALM *of* CYBERSECURITY
and CORPORATE CULTURE**

How the Officer of the Order of the British Empire for Business, Christiane WUILLAMIE OBE, Founder / CEO of PYXIS Culture Technologies Ltd, Leads Collaboration, Drives Standards and Values of Excellence, Creating Strong Cyber Security Culture

CYBER SECURITY CULTURE ADVOCACY LEADER OF THE YEAR 2021

Recognition Granted To

Christiane *Wuillamie*
OBE

*S*pecial recognition is given to Christiane Wuillamie OBE for advancing the understanding of cyber security culture and its importance in protecting businesses, customers, and employees.

*B*ecause Christiane has had a long career in IT from software programming, running Software companies and as a CIO in Financial Services. She has a deep understanding of the impact of Technology on business, people and processes. As an entrepreneur, CEO and Board Director, Christiane takes a strategic, pragmatic as well as hands-on approach, viewing cyber security as a business issue. She has advocated for a more professional and enterprise-wide approach to cyber safety where all functions take accountability for cyber security, not just the CISO. She has worked tirelessly to help business leaders identify and mitigate the hidden operational and cultural causal factors impacting cyber security. Christiane was also awarded the title of Officer of the Order of the British Empire for Business (OBE) by the Queen for her work with the UK Government to support Small and Medium Enterprises (SMEs).

About Christiane WUILLAMIE OBE

Officer of the Order of the British Empire for Business (OBE), **Christiane Wuillamie OBE** started her technology career in 1980 after working for UNCHR setting up a resettlement camp for Vietnamese refugees.

Christiane has done every job in IT from coding, to running a software house, to being CIO in Financial Services. A transformational leader, she built and operationalised a strong, high-performance culture in every role and every turnaround project.

She leverages technology to solve business challenges through developing people and joined-up process that deliver a competitive advantage. Her cyber security and technology management skills make her a valued Board member and advisor on digital transformation.

In the fast-changing cyber world, Christiane believes that only a strong culture of collaboration, transparency and responsible leadership can deliver safety and security for all.

Besides being a Non-Executive Board member, Christiane is the co-founder of a technology firm, PYXIS Culture Technologies that is quantifying the linkage between corporate culture, leadership and business results and helping senior leaders understand how culture impacts cyber security, safety, conduct risk, innovation and customer satisfaction.

***“It’s time for the role of the CISO to change from information security to enterprise security.”
Christiane WUILLAMIE OBE***

About

‘Cyber Security Culture Advocacy Leader’ of the Year Recognition

The “Cyber Security Culture Advocacy Leader” spotlights exemplary advocates that help foster a strong cyber security culture and awareness, inspire, empower and educate corporate leaders that culture impacts cyber security and business performance.

“Cyber security culture is the combination of organizational causal factors that interact to influence and sustain employee attitudes and actions towards cyber security issues. Change the causal factors and you can strengthen the culture.” ~ John R Childress ‘Culture 4.0’

Christiane Wuillamie OBE – A Cyber Warrior Integrating People, Processes and Technology.

The brightest stars are those who shine for the benefit of others. Christiane WUILLAMIE OBE is one of those stars! ~Stéphane Nappo

Christiane Wuillamie OBE has always been a disrupter for good! In the early 1990s her company rescued failing bank IT projects, at the same time developing the skills and capabilities of the bank’s IT staff and creating a high-performance culture. A growth rate of 100% year on year for 7 years is a testament to her vision and innovative approach.

Christiane is a transformational leader who integrates people, processes, and technology to solve today’s biggest cyber security challenges. She sees good cyber security as a profit maximiser, but it is up to responsible leadership to drive security by design, collaboration, shared objectives, and a strong cyber security culture. According to Christiane, the world depends on technology 24 hours every day and successful businesses must build a strong cyber security culture to avoid costly system outages, paying ransom ware and avoid reputational damage.

As Chief Executive Officer of PYXIS Culture Technologies Ltd, Christiane focuses on helping global organizations identify and mitigate hidden cyber security vulnerabilities. She believes that cyber security is not simply a technology issue, but also a business issue and every part of the company, and every individual, must be accountable to building a strong cyber safe organization.

PYXIS Culture Technologies, Ltd

PYXIS Culture Technologies, Ltd is your business partner for cyber security. We differ from traditional consulting firms in two important areas. We combine over 40 years of experience in how culture impacts performance with deep operational experience in technology management, digital transformation, cyber security, and business turnarounds.

At PYXIS Culture Technologies we have pioneered an ecosystem modelling approach for understanding, measuring, and managing cyber security risks to improve business performance. Using systems analytics and proprietary algorithms along with internal company data, we can identify and map the causal factors inside your organization that have a significant impact on cyber security and business performance.
